

## Summertime at EBHC

### ***Earle Brown's Outdoor Easy on the Eyes***

Since its inception, Earle Brown Heritage Center has prided itself on providing not only the right components to a successful event, but also the right environment. With an eye for detail, we hope to bring our clients comfortable and welcoming settings that range from romantic to corporate.

We are especially proud of "The Green," our landscaped, naturally scenic grounds that host sprawling lawns, trees and flower beds. We have even added our own special touches across the beautiful vista with antique streetlights, bubbling fountains and nurtured gardens.

Mostly utilized for wedding ceremonies and company picnics, Earle Brown's outdoor space can be viewed at [www.earlebrown.com/gallery.html](http://www.earlebrown.com/gallery.html). And should Mother Nature decide to interfere, we are available to help with the wind, decorations and sound. Our staff is equipped to battle the elements with a Plan B option, which moves the outdoor occasion to an indoor celebration.

Acre for acre, Earle Brown's outdoor space will turn any event from colorless to classic.
